San Luis Obispo Superior Court (4/2014)

Date of Request

The court is able to provide copies of dockets or case summaries on cases that have not been purged. Dockets/Case Summaries are unavailable on purged cases or on cases older than 1987. If a case has been purged, the court can issue a purged letter. If an older case is not purged, the file may be requested and reviewed. If a defendant has no record with this court, the court can issue a "no record" letter. If you require more information than what is provided on the court's docket, please request cases individually by mail or at our counter using the Request for Case Information form.

**You will be contacted by phone when the request is ready for pick up.**
